RELEVANT PROJECTS & ACTIVITIES

Kuching Autonomous Rapid Transit (ART) Mobile Application Prototype — UI/UX Design
Universiti Malaysia Sarawak (UNIMAS), Sarawak
UI/UX Designer & Interactive Prototype Developer (Group Project) | *April -June* 2026

- Designed wireframes and developed a high-fidelity mobile application prototype for Kuching's upcoming Autonomous Rapid Transit (ART) system.
- Linked prototype screens in Figma to create interactive user flows and demonstrate navigation through the application.
- Contributed to usability testing and user feedback collection to evaluate the prototype's usability and user experience

EcoMiner — Environmental Conservation-Themed Mining Game
Universiti Malaysia Sarawak (UNIMAS), Sarawak
Game Developer & Graphics Programmer (Group Project) | *November 2025 – January 2026*

- Collaborated with a team to develop a retro-inspired mining game using C/C++ and OpenGL, incorporating an environmental conservation theme.

- Created foundational game visuals, including the background and player character, using graphical primitives and geometric shapes.
- Implemented character arm movements and contributed to character animation within the game environment.
- Contributed to a game featuring player movement, multiple stages, scoring mechanics and audio elements.

SDG 3: Good Health and Well-being Educational Application — Java Desktop Application
Universiti Malaysia Sarawak (UNIMAS), Sarawak
Java Developer (Group Project) | *April – June 2026*

- Developed the LearningModule class to manage educational content screens, track the current screen and support forward and backward navigation.
- Designed the Displayable Java interface to standardise screen navigation methods across application modules.
- Developed the LearningModuleGUI class to display educational content through a graphical interface featuring images, scrollable text and navigation buttons.
- Integrated learning module functionality with the graphical interface to deliver an interactive educational experience focused on health and well-being.

Sarawak Heritage Online Auction (SHAA) — Relational Database System
Universiti Malaysia Sarawak (UNIMAS), Sarawak
Database Developer (Group Project) | *April – June 2026*

- Developed SQL functionalities to manage auction system data, including users, auction items, bidding records and transactions.
- Implemented SQL queries and data manipulation operations to manage records and generate auction-related reports.
- Developed queries for retrieving information such as popular auction items and completed orders across reporting periods.
- Tested database functions and query results to verify data manipulation and retrieval.

Secretary & UI/UX Designer — PERTEKMA, UNIMAS
Universiti Malaysia Sarawak, Sarawak | *2024 – Present*

- Design posters and edit promotional visuals for IT Week, social media and other organisational activities.
- Create digital promotional materials to support event communications and maintain visual consistency.
- Contribute to the organisation's design and administrative activities as secretary.

Volunteer Master of Ceremonies — Faculty Events, UNIMAS
Universiti Malaysia Sarawak, Sarawak | *2025*

- Volunteered as a master of ceremonies for faculty events, facilitating programme flow and communicating information to attendees.
- Guided audiences through event segments and announcements to support smooth event proceedings.
